WORK EXPERIENCE

Technical Lead
Tata Consultancy Services

09/2017 - Present   *Amsterdam, Netherlands*

- **Led the migration of 100+ on-premise applications** to Microsoft Azure Cloud as an onsite Technical Lead, ensuring seamless transitions and minimal downtime.
- **Collaborated with a team of 10+ engineers** to identify and resolve technical challenges during the migration of Kubernetes applications to Azure Kubernetes Services (AKS) using Helm, achieving a 20% improvement in deployment efficiency.
- Designed and executed **Blue-Green**, **Canary** and **A/B deployment strategies** on Azure Kuberenetes Services, enhancing release reliability and minimizing service disruptions.
- **Developed 10+ reusable GitHub Actions workflows** (YAML-based CICD), streamlining build, testing, deployment, and release processes across multiple technology stacks.
- Worked as **Lead Full Stack Developer** at TCS Innovation Center, delivering 5+ applications using .NET Core, Angular (TypeScript/JavaScript), and Microsoft Azure.
- Proactively explored and implemented innovative solutions to optimise costs and processes, achieving cost savings of **$16K** and **$8K** annually through process automation and efficient resource utilisation for clients.
- Awarded **Technical Excellence Award twice** and **Star of the Month thrice** for exceptional contributions, demonstrating leadership and technical expertise.

CERTIFICATES

Microsoft Certified: Azure Solutions Architect Expert(AZ-305) ↗

Microsoft Certified: Azure Administrator Associate (AZ-104) ↗

Microsoft Certified: Azure Developer Associate (AZ-204) ↗

GitHub: GitHub Actions Certification Program ↗

EDUCATION

Bachelor of Computer Engineering
Amrutvahini College of Engineering, Savitribai Phule Pune University

06/2013 - 06/2017

SKILLS

Azure Cloud: Kubernetes, Container Registry, App Services, App Insights, Key Vault, Application Gateway, Container Instances, Azure Functions, APIM, Cosmos DB(Mongo DB API), PSQL, OpenAI, Cost Management, Virtual networks

DevOps Tools: GitHub Actions, Terraform, Helm, CI/CD Pipelines, FinOps, JIRA, Git, VS Code, SonarQube, Dynatrace, Grafana

Programming: .NET Core, PowerShell, Bash, Azure CLI

NOTABLE CLIENTS

Full stack developer
Total Energies

09/2017 - 02/2022   *Pune, India*

- Led the development of **5+ enterprise-grade applications** at TCS Innovation Center (CIDI), leveraging .NET Core, Angular (TypeScript/JavaScript), and Microsoft Azure to deliver scalable and secure solutions.
- Presented sprint-end demonstrations to stakeholders for **50+ features** developed, ensuring alignment with client expectations.
- **Authored 100+ unit test cases** to ensure 95%+ code coverage, addressing all edge cases and improving application reliability.

Onsite Technical Lead
Air France–KLM

02/2022 - Present   *Amsterdam, Netherlands*

- **Led the migration of 100+ on-premise applications** to Microsoft Azure Cloud as an onsite Technical Lead, ensuring seamless transitions and minimal downtime.
- Collaborated with **10+ product teams** across the client organization, incorporating feedback to drive continuous improvement and alignment with business objectives.
- Explored and implemented innovative solutions, optimising costs and processes to deliver a **30% reduction** in resource usage.
