

Summary

Cloud and DevOps Engineer with 7+ years of experience leading cloud migrations, building CI/CD pipelines and optimizing cloud infrastructure for performance and cost. Proven record of driving technical excellence and client satisfaction through automation and innovation

Skills

Azure Cloud: Azure Kubernetes Services, App Services, Azure Static Web App, Azure Functions, Container Registry, Azure Application Gateway, Azure Cosmos DB (Mongo DB API), Azure Application Insights, Azure PSQL, Virtual Networks, Azure Key Vault, NSG, ASG, Azure Entra ID, IAM, RBAC, Cost Management
DevOps Tools: GitHub Actions, Terraform, Helm, CI/CD (YAML), FinOps, JIRA, Git, VS Code, Dynatrace, Azure DevOps
Programming/Scripting: .NET Core, PowerShell, Bash, Azure CLI, Angular (Versions 6, 9, 10 and 11)

Experience

- Tata Consultancy Services** [Sep 2017 – Present]
Onsite Technical Lead, Amsterdam, Netherlands [May 2022 – Present]
- Ensured seamless transition of 100+ on-premises applications to Microsoft Azure cloud by providing hands-on technical expertise and leadership
 - Enhanced release stability and minimized service disruption by 40% by designing and executing Blue-Green, Canary and A/B deployment strategies on Azure Kubernetes Services
 - Streamlined build, test, deployment & release process across 2+ technology stacks by developing 10+ reusable GitHub Actions workflows (YAML Based CI/CD)
 - Achieved cost avoidance/cost savings of EUR 200K per annum by proactively exploring and implementing process automation and effective resource utilization strategies for clients
 - Drove continuous improvement and alignment with business objectives by collaboration with 10+ product teams across client organization incorporating feedback
- Full Stack Developer, Pune, India** [Sep 2017 – Apr 2022]
- Developed and delivered over 5 scalable and enterprise grade applications at TCS Innovation Center (CID), leveraging .NET Core, Angular (versions 6,9 and 10) and Microsoft Azure
 - Improved application reliability and ensured 95%+ code coverage addressing all edge cases by authoring 100+ unit test cases
 - Presented sprint-end demonstrations to stakeholders for 50+ features developed, ensuring alignment with client expectations.

Projects

- Personal Portfolio – [Link to webpage](#)** [Feb 2025 – Present]
- Utilized Terraform as Infrastructure As Code (IaC) tool to provision infrastructure in Azure
 - Used Visual Studio Code (VS Code) as the IDE, Git & GitHub as VCS & GitHub Actions as CI/CD solution
 - Deployed the web application on Azure Static Web App
 - Used HTML, JavaScript, CSS for development of webpage

Certifications

- GitHub Actions Certification Program – [Verification Link](#) [Dec 2024 – Dec 2027]
- Azure Solutions Architect Expert (AZ – 305) – [Verification Link](#) [Jun 2024 – Jun 2026]
- Azure Administrator Associate (AZ – 104) – [Verification Link](#) [May 2023 – May 2026]
- Azure Developer Associate (AZ – 204) – [Verification Link](#) [June 2021 – June 2026]

Education

- B.E Computer Engineering: Savitribai Phule Pune University, Pune [June 2013 – June 2017]

Hobbies & Interests

Passionate about traveling, motorcycling, and playing cricket, promoting work-life balance and resilience.
